UNSOLICITED TESTIMONIALS

== Commentary ==

This week, the 2300th edition of Glenn Hauser's World of Radio is airing. This radio show is one of the best on shortwave radio today, is always informative and interesting, and we're happily acknowledging this milestone.

In the WBCQ archives, there is a cassette of two episodes of "World of Radio Extra" that were aired on WBCQ in 1999.
https://archive.org/details/classic-wor

I don't think Glenn distributes his show to any stations via cassette anymore (Larry Will, June 20, Free Radio Weekly) Correct; thank you, Larry! (gh)

** ANTARCTICA [non]. Reminder that BBCWS annual mid-winter special to the British Antarctic Survey is June 21 at 2130-2159 UT on 5960 UAE, 9575 Ascension, 12065 - not 13810 which was tested a week ago, Woofferton. Original publicity gave the time as 1832 ``local`` - that is apparently really 1832 UT, but NO English SW frequencies are regularly scheduled at that time per HFCC - only 17830 Ascension -- but M-F only! Indeed, no 17830 signal into various remotes at 1851 Sat June 21. Maybe streamed, DAB. And HFCC shows except for this one occasion there are *no* BBCWS English SW frequencies on air between 2000 and 2200. No doubt we can hear it on demand later as well as previous ones on the programmme website. Or not: this site says ``this content is not available in your location``
https://www.bbc.co.uk/sounds/play/w3ct7zyv
But this one looks OK:
https://www.bbc.co.uk/programmes/w3ct7zyv
King Charles III is participating this time; otherwise the greetings come from family members, also with bits of music (Glenn Hauser, OK, WOR)

** ANTARCTICA [non]. Midwinter special from BBCWS, June 21 at 2130: did not expect it to be listenable direct, way offbeam on all three frequencies, so fished around various SDRs closer to the target. Falklands offline. Best Goiânia, also Brasília.

Kiwi map shows one in the middle of ocean between RSA and Antarctica, but nothing about where it is except for coördinates. Does it have to be on any land? Here is how it`s labeled: Niendorf a.d.St. {whatever that mean} | Grid JO53HO21, ASL 72m, [map], SNR 29/25 dB Antenna: MiniWhip. The map leads to: 53-35-19.9S, 10-36-02.8E but still no name, and no land but the pin. Looks like closest known island. but not close enough, is extremely remote Bouvet, 54-42S, 03-36E. At first check 2127 it`s got something weak on 5960, nothing on 12065 or 9575.

At 2130, Brasília 12065 at S3/S6, as programmme opens about S Georgia. At 2135 I check direct: JBA carriers only on 9575, 12065. At 2139 I`m listening via Goiânia, 9575 S6/S8 is best of bunch but noisy. I`m just going to listen to it on web later. 2156 final check: about S Georgia, `Fisherman Blues` by The Waterboys -- lots of music but only snippets in limited time, and mention Bird/Byrd Island. Says 27 nations are represented, not just Britain, and also greets us listeners elsewhere. Hostess is Cerys pronounced Kerys, Matthews, and 9575 off promptly by 2200.

See my previous report for web linx. Now the ``OK`` one merely leads to the blocked one! Can anyone suggest another recording of the whole

show? Off SW reception if necessary, but someone could download the studio file where it is available, and share it with us. Or is it ``available`` only in Antarctica? (Glenn Hauser, OK, WOR)

** ANTARCTICA [non]. In the WOR iog, very useful replies to questions raised in my previous report: The remote in the middle of the ocean between South Africa and Antarctica: OOOPS, Kiwi map put it at latitude south instead of north! From Alexander Miatlikov, Ukraine: https://en.wikipedia.org/wiki/Niendorf_an_der_Stecknitz ``Niendorf an der Stecknitz is a municipality in the district of Lauenburg, in Schleswig-Holstein, Germany. Coordinates: 53°35′N 10°36′E``

``I think this receiver is in Germany (Niendorf an der Stecknitz), but registered with "S" rather than "N" in its coordinates. It could be on a boat I supposed, but I suspect administator finger trouble. Cheers, Chris`` Mackerell, NZ.

``I recorded the whole 30-minute version using the U. Twente SDR receiver with good quality but it might take me awhile to do a formal archiving. I'll see if I can put it somewhere temporarily tomorrow and then share the link. – Richard Langley``

``A quick YouTube search finds this half-hour recording of reception on 12065. {by IZ0KBA} https://www.youtube.com/watch?v=L525XKAz_eQ mc`` – Mike Cooper

``June 21, 2025, 38 minutes {!}, Available for over a year`` https://www.bbc.com/audio/play/p0lkm5k6 – via Kim Elliott (Glenn Hauser, OK, WOR)

** ANTARCTICA [non]. Re: ``"I recorded the whole 30-minute version using the U. Twente SDR receiver with good quality but it might take me awhile to do a formal archiving. I'll see if I can put it somewhere temporarily tomorrow and then share the link."

Here you go: https://drive.google.com/file/d/1Lmlj_G7X-VwmW1O7_YGt2oNrSgGGLto5/view?usp=sharing

A slightly different version for The Documentary Podcast. So, we have three versions: the SW version transmitted to Antarctica, the version that went out earlier on the BBC WS streams, and the podcast version.

By the way, this year's program has special significance for us at the University of New Brunswick, as one of my colleagues participated in the Canadian science expedition to Antarctica on HMCS Mary Brooke earlier this year and did some unprecedented mapping of part of the ocean floor down there. He also visited Rothera. https://blogs.unb.ca/newsroom/2025/05/kevin-wilcox.php -- Richard Langley`` (via Glenn Hauser, WOR)

** BRAZIL. 11748.9, June 23 at 0205, JBA carrier in typical offfrequenciness of R. Voz Missionária (Glenn Hauser, OK, WOR)

** BRAZIL. 11780, June 19 at 0150 into Bonaire, S9+10 in some native language, translation voiceover Portuguese, more but different voice at 0156, 0159 back to Brasuguese: instead of nominal 0150 English, 0155 Spanish. What is that language? Also noted by John Figliozzi: ``No English tonight. Sounds like a man speaking in a language native to the Amazon region. (0150-0157)`` (Glenn Hauser, OK, WORLD OF RADIO 2300)

** CANADA [and non]. 346 MCW kHz, June 25 at 0626, dash and YXL is JBA direct, even when my ``locals`` are uncopiable vs high line and storm

noise levels, beyond perhaps a JBA carrier only: 255 SW Stillwater OK, 293 FBY Fairbury NE, 329 PMV Portsmouth NE, 332 IC Wichita KS, 395 CA Newton/Harvs KS, 407 HRU Herington KS. All of which are 25 watts except 400 for IC, really? The 500 watts from SiouX Lookout ON makes the difference (Glenn Hauser, OK, WOR)

** CANADA. 28168 CW, June 19 at 1551 just before trying for the Armstrong special from NJ on 42.8 MHz, even 10m is hardly open, nothing but a JBA beacon finally copied after multiple passes as: EEE VVV VA3KAH/B. WGB list: ``28168.0 VA3KAH/B - Kah-She-Island Georgian Bay ON CAN EN95wc - #0 (06 Oct 2024) Note: VVV de VA3KAH + grid + E × 5 - Ant half wave vertical pwr 38w /ERP 65w`` (Glenn Hauser, OK, WOR)

** COLOMBIA. 10125 CW, June 24 at 0629, VVV DE HK3QQ, etc. For the record, *still* active sending corrupted letters in keyboard order. My 31m bandscans always start or end on this frequency. Lately just a trace, but JBA tonight enough to copy definite ID (Glenn Hauser, OK, WOR)

** CUBA. 15230, June 20 at 1444, RHC is S7/S9, the SSOB except for 15150 WMLK, but very suptorted. Something`s always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA. 9580, June 23 at 0200, one pip and CRI relay presumed Cantonese, very suptorted so my 100% uncomprehension was not affected. Something`s always wrong at RadioCuba. The ChiCom obviously don`t care how negatively this reflect upon them (Glenn Hauser, OK, WOR)

** CUBA. 5025, June 25 at 0624, R. Rebelde not off the air but S9+25 making it the SSOB except for WWV. Only other broadcast detectable is JBA carrier from Estación 4940, Venezuela, since 4840 WWCR is OFF, q.v. (Glenn Hauser,, OK, WOR)

** IRAN [non]. [WOR] ``Radio Farda:
1700-1900 on   9450 (DHA)
2300-0400 sur 9620 (WOF)
0400-0700 sur 12035 (DHA)
1300-1700 sur 12035 'DHA)
1900-2300 sur 12035 (WOF)
0700-1000 sur 13710 (DHA)
1000-1300 sur 15720 (DHA)
HFCC June 20`` (via Jean-Michel Aubier, WOR iog)

UTwente is getting something on 12034.986 at 1605, talk, S9/+15 but not solid, apparently Farda via UAE, with characteristic offfrequenciness. Nothing listed on 12035 at any time by EiBi and Aoki. 12035 also confirmed after 1900 by Rudolf Grimm, Brasil, when it`s Woofferton.

9450, next frequency per above schedule, also had been unused at these hours per Aoki & EiBi: 9449.989-, June 20 at 1822, almost same offset at DHA/UAE, more presumed Farda, S9+10/20 into UTwente. At 1830, mentions of Iran and Farda (Glenn Hauser, OK, WOR)

** IRAN [non]. 12035.000, June 23 at 2213 direct, S8/S9 ME music, soon mention Farda and Iran. Much stronger than neighbor 12050 WEWN. At 2231 into Maryland SDR, VG S7/S9 with music, not news on the hour - of course, it is the nightmiddle there. Chopoff at 2259.7* during music. Yes, as now scheduled via Woofferton, per HFCC 1900-2300, 250 kW 90 degrees due east, so we are not directly off the back. 12035 is also via DHA, UAE site at 04-07 & 13-17 with 250 kW at 35 degrees from there.

Kuwait should have been the preferred SW site if Trump had not forced it to close - almost? Monthly update from Association for

International Broadcasting June 23: ``Meanwhile there's news about transmitting stations owned by the US Agency for Global Media. The relay station in Kuwait that was closed down in early June has been reactivated to allow 15 minutes of VoA {sic} Persian to be broadcast to Iran and neighbouring countries. It is unclear who is operating the station as the AIB understands a "manager" had been sent to Kuwait (presumably from Washington DC) to close the operation.``

To which I replied: ``15 minutes? Why bother? Time and frequency? source? Not in HFCC as of June 23. Of course we know that R Farda is back on air 24h via UAE, Woofferton. From what studio, Washington, Prague, or ??``

Full 24h schedule registered with HFCC as of June 20, first reported by Jean-Michel Aubier. These are all routed thru Encompass. Here it is in time order:

2300-0400 9620 (WOF)
0400-0700 12035 (DHA)
0700-1000 13710 (DHA)
1000-1300 15720 (DHA)
1300-1700 12035 (DHA)
1700-1900 9450 (DHA)
1900-2300 12035 (WOF)

9620, June 24 at 0226, VG S9+10 direct, folk song in English, ``Farewell, Angelina``, evidently by Joan Baez; radiofarda.com ID, more music. 0230 themes and presumed news, 0235 back to music. Website easily converts to English, but nothing there about any SW frequencies. BTW, Farda means tomorrow, very similar to the #1 nuclear site bombed, but I guess coincidental (Glenn Hauser, OK, WOR)

** IRAN [non]. 12035, June 24 at 2157, R. Farda, music S8/S9, surprisingly good direct way off-target from Woofferton (Glenn Hauser, OK, WOR)

** KOREA NORTH. 13649.93, June 23 at 1453, JBA carrier. Suspected UAE site in characteristic offfrequenciness, with WRN Russian relays, but that does not start until 1700. Closest to this time is VOK/KCBS until 1450 per Aoki & EiBi, certainly another one with such capability (Glenn Hauser, OK, WOR)

** MEXICO. 760.13, June 23 at 0227, that het upon WJR again, must be XEDGO Durango2 as in my June 16 log, q.v. Altho it was known for some time, I had not noticed it before then (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6924.95 AM, June 22 at 0151, JBA music direct from some pirate. Several logs here at earlier hours, as ION Radio, 6925, but the last one at 0146, ``S5 with no hint of audio, frequency seems more centered on 6924.940``:
https://www.hfunderground.com/board/index.php/topic,146813.0.html
(Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6849.95 AM, June 23 at 0210, pirate music S9+10 in HSNL, OSOB. These a few minutes later say 6850 with Liquid Radio:
https://www.hfunderground.com/board/index.php/topic,146870.0.html
(Glenn Hauser, OK, WOR)

** OKLAHOMA. 1680, June 25 circa 2000 UT, pop music here instead of 1670, presumed still Virtual DJ Radio relay. Still peaks near crossroads of US81 and US412, but seems somewhat weaker, decreased range than had been on 1670. Well before any skywave, at 2158, 1680 is JBA on home rig further away (Glenn Hauser, Enid, WOR)

** OKLAHOMA. 87.9, June 24 at 2219, dead air in $tereo, not solid like

usually from maybe a block away, RF feeder? (Glenn Hauser, OK, WOR)

** OKLAHOMA. 99.5, June 21 at 1626 UT, ad for NewsOn6, i.e. KOTV RF 26 et al., and 1170 AM, then weather provided by a NO6 met, Travis Meyer?, ``Big Country 99.5`` non-ID, i.e. KXBL Henrietta, rimshotter to Tulsa market. TV weatherpersons get sidegigs providing wx breaks to radio stations. Coverage map shows site is axually closer to Tulsa than Henryetta, how fortunate: in the NW corner of Okmulgee county. Both H and T are of course well within the `local` circle. Fringe range to OKC, Perry, Ponca City, KS border, Wilburton, Ada (Glenn Hauser, OK, WOR)

** OKLAHOMA. RF 17, K17JN-D, the 3ABN multi-channel satellator, Enid`s only local TV signal, is still OFF the air as of 16 UT June 24. This has happened before and will probably eventually resume when they get around to it. First noted missing this time on June 11. Their own ID has been wrong for years, ``K17JI-D`` which is really in Fresno, CA (Glenn Hauser, Enid, WOR)

** SOUTH CAROLINA [non]. 5890, June 22 at 0628, WWCR with Brother Scare. Normally I tune across these hurriedly like the plague, but he was exulting in being widely heard from a European station on 1631 kHz, as he mentioned repeatedly. He got DX reports on that from as far as Brasil, Iran -- without aid of a remote? Who knows. Of course this was many years ago, but when, and what? In the x-band that should be a pirate. Searching that number in my archive and at HFUnderground gets far too many hits, most of them of course a time rather than frequency (Glenn Hauser, OK, WOR)

** SOUTH CAROLINA [non]. 5890, UT Tue June 24 at 0623, TOMBS on WWCR with Bro. Edward, S9+65, ``maranatha``. // 5850 but not synch. 5890 overnight is supposedly only on weekends, usually no signal by now. Something`s notright at Nashville.

``Maranatha [H] [S] (1 Corinthians 16:22) consists of two Aramean words, Maran'athah, meaning, "our Lord comes," or is "coming." If the latter interpretation is adopted, the meaning of the phrase is, "Our Lord is coming, and he will judge those who have set him at nought." (Compare Phil 4:5 ; James 5:8 James 5:9 .)``

``Come, Lord! In the Catechism of the Catholic Church, "Maranatha" was translated as "Come, Lord!". In the Latin Church, the word "Maranatha" has been used as a solemn formula of excommunication (alongside "anathema").`` (Glenn Hauser, OK, WOR)

** SPAIN. 15500 & 17715 VG S9+20/30. 15520 much weaker, 15390 JBA direct, Fri June 20 at 2159, all four SNRs are on, 2200 accurate timesignal and token English. Preview topic to be agreement between Spain and UK about ``Europe`s last wall``, the boundary between Gibraltar and Spain, which has been a problem since BrExit; with Luís Rodrigo de Castro, international relations professor somewhere. 2201 news leads with Spain PM refusing to spend 5% of GDP on defense as Drumpf demands (Glenn Hauser, OK, WOR)

** SPAIN. 15500 & 17715 S9+20/30, 15520 S9/+10, 15390 S9 vs S8 noiselevel direct, Mon June 23 at 2200, token English from REE/SNR, preview topic the ``evolution`` of Madrid over 3 decades, interview a non-native who feels at home there. 2201 token news, only 2 brief items about US attacking Iran Sat, Iran promises revenge, clip of Drumpf; Spain`s agreement with NATO to remain in good standing despite refusing to spend 5% of GDP on defense, now may set its own level. NO mention of Iran attempting to bomb US base on Qatar which was several hours ago, so this is olds, not news. 2204 already into Madrid interview (Glenn Hauser, OK, WOR)

** SPAIN. 15500 & 17715, Wed June 25 at 2200, token English from REE VG S9+20 direct, also audible on 15520, detectable on 15390. Preview topic, about Julia Margaret Cameron, and something about best food? 2201.7 news about 5% GDP defense spending in NATO except by Spain; Wed. afternoon ceasefire? Iran/Israel. 2205 exhibition about Julia who was an early proponent of photography as an art form (Glenn Hauser, OK, WOR)

** TURKEY. 11785.004-, June 20 at 2159, JBA direct from VOT English; at 2225, S9+20/40 into UTwente when measured, talk about Turkish Republic of Northern Cyprus not being widely recognized; 2231 outro as `The Pulse of Turkish Foreign Policy`, music. 2236 multi-lingual ID filler reel, music. 2241 `Did You Know That` with Efsun, topic unknown. 2246 music. 2250 ``always-by-your-side`` promo, music. 2254 s/off as if 1230 on 17620, something`s always awry at Ankara. First notes of IS only one sesquitime to 2255* chop. Something`s always erroneous at Emirler (Glenn Hauser, OK, WOR)

** TURKEY. 9875.019-, Sunday June 22 at 2049, VOT English S9+20/30 backwards into UTwente, starting `Letterbox` after music break. Cemre says toward end of the month the QSL dept. compiles email reports and forwards them to her for show. That could explain why so much of the correspondence is from QSL-seekers. 1) Bulgaria. 2) Annan? Mohand? India, pres. of an SWL club since 1990y with 338 members worldwide. Will have a contest about VOT, asking several questions. She answers some of them already, such as the English service gets about 100 emails per month. 2) Andre, Russia. Letters, I guess meaning postal as distinct from e: 3) China, two from same. 4) India? SWL club. 5) Colorado. 6) Sichuan, China. 7) last: Malaysia, QSL for Spanish. Closing and 2106 theme, tune-out. I have a very hard time copying names, especially with some distortion as received by UTwente (Glenn Hauser, OK, WOR)

** TURKEY. 11785.020, June 23 at 2158 past 2200, no signal from VOT English direct; something`s always erroneous at Emirler. But on by recheck 2212, S9+10/20 in music. At 2239 into UTwente when measured, S9+30/40. Not retune until 2254 when IS is already playing. 2256 restart IS with German IDs: here we go again, immer etwas, but chopoff at 2259.6* (Glenn Hauser, OK, WOR)

** TURKEY. 11785.004+, June 24 at 2158, VOT not off the air, IS & ID JBA in noise level tho S9 direct. At 2229 into UTwente when measured, S9+25/35 TRTVOTVorld promo, music; 2253 ``always-by-your-side`` promo, s/off, brief IS to 2254+* (Glenn Hauser, OK, WOR)

** TURKEY. 11785.003, June 25 at 2158, VOT not off the air but JBA direct, presumed English. At 2227 into UTwente when measured, S9+25/35 music. 2231 ``with-you-every-hour`` promo, 2232 `Sports Panorama`, music. 2242 ``always-by-your-side`` promo, music. 2246 TRTVOTVorld promo, music. 2252 s/off as if 1230 on 17620, something`s always awry at Ankara. 2253 IS to 2254.5* (Glenn Hauser, OK, WOR)

** U S A. 14325 USB, June 25 at 2215, ``Pota`` ham contacts, i.e. Parks on the Air net. Presumably will suspend when Hurricane Watch net activate on same (Glenn Hauser, OK, WOR)

** U S A. On 10m, only hearing these four beacons, three of them from same area, and no phones:

25250+ CW, June 20 at 2205, Ex10 DE KG5SQD/B EL... WGB list: ``28251.0 KC5SQD/B - Missouri TX USA EL29go - #0/1 (17 Apr 2025) Note: de + ID + grid + E × 10`` - QRZ.com: ``KC5SQD USA flag USA, NATHAN O "Nate" SAMPSON, 7619 S GLEN WILLOW, MISSOURI, TX 77489``

28251+ CW, June 20 at 2206, much weaker than neighbor above, KE5JXC/B

E... and long pause. 2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.

Thanks for financial support this week from Gerald T. Pollard, Raleigh NC, marking Summer Solstice, a generous check on a US bank to:
Glenn Hauser, PO Box 1684, Enid OK 73702

One may also contribute via PayPal in US funds but not necessarily, to woradio at yahoo.com (Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2300 monitoring: confirmed first SWBC, Friday June 20 at 1300 on WRMI 15770, JBA direct but recognizable.

Also confirmed Friday June 20 at 2056 on IRRS SW via AM Italia, 1322.994, S9 into UTwente; but cut to dead air at 2057 after I utter ``Hansen``. Next:

2200 UT Friday WRMI 9955 to SSE;
2230 UT Friday SW Radio, Germany 3975;
0300 UT Saturday WTWW 5085 [sometimes];
1430 UT Saturday SW Radio, Germany 6160;
1730 UT Saturday SW Radio, Germany 3975 & 6160;
1930vUT Saturday WA0RCR 1860-AM [1900/2100];
2230 UT Saturday WRMI 15770 to NE;
2300 UT Saturday WTWW 9475 [suspended];
0230vUT Sunday WA0RCR 1860-AM [nominal 0315; as late as 0400];
1900 UT Sunday IRRS SW via AM Italia 1323v;
2130 UT Sunday SW Radio, Germany 3975 & 6160;
2330 UT Sunday WRMI 9455 to NW;
0030 UT Monday WRMI 7780 to SW;
0830 UT Monday SW Radio, Germany 6160 [suspended];
1930 UT Monday SW Radio, Germany 3975 & 6160;

0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2000 UT Tuesday IRRS SW via AM Italia 1323v;
2330 UT Tuesday WRMI 9395 to NNW;
2330 UT Tuesday SW Radio, Germany 3975;
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2300 monitoring: confirmed Friday June 20 at 2202 the 2200 on WRMI 9955, S9+10 direct but JBA/JBM. At 2224 into Georgia SDR, S9+35! so now am sure it be me.

Also confirmed Friday June 20 at 2230 on SW Radio,Germany, 3975.002, S9/+10 into UTwente.

Not confirmed UT Sat June 21 at 0300 on 5085, since WTWW still off the air.

Confirmed Saturday June 21 at 1434 the 1431 on SW Radio, Germany, 6160.001-, S8.5 into UTwente.

Confirmed Saturday June 21 at 1600 on WRN North America stream.

Confirmed Saturday June 21 at 1735 the 1731 on SW Radio, Germany, 6160.000+, S8/9+10 and 3975.001+, S9 with local het into UTwente; into DL7APJ remote: 6160.001 S9+10/20 and 3975.001 S9/+12. The lower frequency is sightly delayed from the higher.

Confirmed after 1930 Saturday June 21 on WRN North America stream; NOT on WRMI stream.

Confirmed Saturday June 21 at 1949 on WA0RCR, 1860 AM, MO, about 4 minutes into so the 1930v started circa 1945, S7 into K9VD Jerseyville IL remote.

Confirmed Saturday June 21 at 2000 on WRN Europe stream. Next:

2230 UT Saturday WRMI 15770 to NE;
2300 UT Saturday WTWW 9475 [suspended];
0230vUT Sunday WA0RCR 1860-AM [nominal 0315; as late as 0400];
1900 UT Sunday IRRS SW via AM Italia 1323v;
2130 UT Sunday SW Radio, Germany 3975 & 6160;
2330 UT Sunday WRMI 9455 to NW;
0030 UT Monday WRMI 7780 to SW;
0830 UT Monday SW Radio, Germany 6160 [suspended];

1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2300 monitoring: confirmed UT Tuesday June 24 at 0330 on WRMI 7780, S9+ into S Texas SDR.

Also confirmed Tuesday June 24 at 1300 on WRMI 9955, JBA S7/S9, seems also some CCI, but nothing else is ever scheduled on 9955.

Also confirmed Tuesday June 24 at 1407 the 1400 on WRMI 9955, S8/S9 direct, and better than an hour ago.

Also confirmed Tuesday June 24 at 2000 on IRRS SW via AM Italia 1322.994+, S7.5 into UTwente. Next:

2330 UT Tuesday WRMI 9395 to NNW;
2330 UT Tuesday SW Radio, Germany 3975;
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A. WORLD OF RADIO 2300 monitoring: ``From: Richard Lemke, Alberta, Canada, the desk of Richard’s listening Post, Radio: JRC NRD-535 HF (30 years of service), Antenna: random long wires in the trees, World of Radio #2300, congratulations:
9455 kHz, Static QRN, S6, S7 signal, 2330, 2344, 2345, 2358, June 22 UTC 2025 [Sun]
9395 kHz, 2330-2345, 2359 S5, S6 signal, just heard voice no ID, difficult, June 24 UTC 2025 Tue. (Lemke, Richard -AB) Typed, June 24, 2025, 73’s, Richard Lemke, 7:08 pm (Lemke, Richard -AB)``

Confirmed Tuesday June 24 at 2330 on WRMI 9395, S9+20/35 into Georgia SDR.

Also confirmed Tuesday June 24 at 2331 on SW Radio, Germany, 3975.002+, S9/+10 into UTwente. Next:

1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2300 monitoring: confirmed Wednesday June 25 at 1932 the 1931 on SW Radio, Germany, 6160.001+ at

S9+5/15, and 3975.002-, S9/+10 into UTwente.

Also confirmed Wednesday June 25 at 2110 the 2100 on WBCQ 7490 -78 Hz = 7489.922, S7/S9 into Maryland SDR. Next:

0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 6160.

Thanks for financial support this week from Gerald T. Pollard, Raleigh NC, marking Summer Solstice, a generous check on a US bank to: Glenn Hauser, PO Box 1684, Enid OK 73702

One may also contribute via PayPal in US funds but not necessarily, to woradio at yahoo.com (Glenn Hauser, OK, WOR)

** U S A. Pre-`AAAWWW` chex of WBCQs June 20 at 2348+ into NH SDR: 3265 off. 5130 -84 Hz = 5129.916 open carrier. 6160 -73 Hz = 6159.927 also OC. 7490 -77 Hz = 7489.923, S8/S9 FKB. 9330 WLC PP S7/9. At 2355, both 5130 & 6160 start IS & ID loop, slightly out of sync. 0000 June 21, 5130 announces AAAWWW is a repeat of April 11, 2025, and it continues // 7490 & 9330. Never mind: I logged it in detail on that date. As usual, 6160 with some other program on its now very curtailed schedule (Glenn Hauser, OK, WOR)

** U S A. 5129.9, June 24 at 0126 JBA signal vs HSNL must be WBCQ, which per own websked is not on the air at all on UT Tuesday!! At 0158 I check Maryland SDR, and hear Hal Turner wrapping up with a gold/silver commercial, whilst 6160- is off the air, but // 7490-. But by 0200, 5130- is playing the generic WBCQ s/off. Evidently Turner has been moved from 6160 to 5130. Why doesn`t the sked show this correctly? Not that I care to hear him anywhere (Glenn Hauser, OK, WOR)

** U S A. 9330, June 25 at 0616, NO signal from WBCQ. Also at 1456 - but that could be during a rotation pause - NO, STILL NO SIGNAL at 1521, 1700. What`s wrong? BTW, 9330 is often unreasonably weak for 500? 250? kW, when WLC is beaming toward Brasil, off the side to here (Glenn Hauser, OK, WOR)

** U S A. 9330, June 25 at 2110, WLCR on WBCQ is still OFF, into Maryland SDR. Also still off at 2210 direct (Glenn Hauser, OK, WOR)

** U S A. 15770, Sat June 21 at 2300, WRMI via UTwente with `VOSR International`, newish DX program, immediately following WOR. Who is this guy? Maybe he gave his name once; if so, I missed it, and can`t find it anywhere on website vosrinternational.com Location shown as Moloka`i, and he talked about driving across Kaua`i to visit WWVH. At least first semihour is a monolog, about scheduling, what he wants to do, etc. This is apparently a new broadcast. He says on 9455 has moved an hour earlier at 0300 instead of 0400. WRMI sked shows that is UT Saturdays, and there is another one? Fridays at 2300 on 5010. The 15770 is new once a month with repeats between; the 9455 one is alternate weeks - but still only repeats? (Glenn Hauser, OK, WOR)

** U S A. Re previous report: ``VOSR, at 2300 on WRMI 15770, is for Euro listeners; the guy hosting the show is known as WaveCrest Guy on YouTube, with monitoring samples from various receivers and with different antennas. Another great Hawaii DXer, following the lead of such notables as Dale Park from the 80s, and Dr Richard E Wood. It's a great spot for trans-Pacific SW and MW, if you have the right equipment for the task. Joe Hanlon, NJ`` - so his real identity remains hidden? So he`s a surfer? BTW, his website seems from some template with certain parts not filled in (Glenn Hauser, OK, WOR)

** U S A. 5830/6050, June 23 at 0213-0218, rough extent of splatter out of WTWW 5920, during TOMBS, pinned on that rather than 5850 or 5890, by matching modulation peaks on a second receiver; takes some doing vs high storm noise level out of west Texas, and/or Nebraska, Minnesota. Worst of course closest to 5920. First peak noticed 5955-5965 area, then 5975-5990, trailing off above 6000, and then traced downward to 5855 and the other side of WRMI 5850 to 5830 or so. QRMed/blocked by non-spur signals such as 5850, 5890, 5935, without which and HSNL it would probably be audible continually.

The other WTWW not on 5085 tonight, and have not noticed it on for several nights now. No word yet from George about what may be the latest problem with that (Glenn Hauser, OK, WOR)

** U S A. 9930, June 24 at 0128, TOMBS on WTWW is S9+40/50 direct, with JBA spur parasites plus/minus about 12.8 instead of 12.9 kHz, i.e. 9917.2 & 9942.8; but no splatter despite huge signal on fundamental. Continuing bandscan, by 0132 I find 5920 is on instead of 9930: is 0130 now the nominal QSY time? How old is this nonsense from Brother Hystairical? He happened to mention ``today, 7/31/08`` (Glenn Hauser, OK, WOR)

** U S A. 10005-10019, 9840-9875, June 24 at 2208, approx. range of splatter peaks out of 9930 WTWW with TOMBS, which is S9+50 and somewhat overmodulatedistorted on fundamental, also with plus/minus 12.8 kHz parasitic spurs. Probably broader but at least not QRMing much if tuned directly to 9955, 9980 or 10000 (Glenn Hauser, OK, WOR)

** U S A. 7505, 9275, 5085, June 24 at 0130, these stations are NOT on the air when they are scheduled to be: WRNO, WMLK, WTWW (Glenn Hauser, OK, WOR)

** U S A. 5935, June 25 at 0622, this WWCR is OFF instead of all-night blasting DGS/PMS/TUN. Then I quickly discover 4840 is also OFF, having first checked 5890 whether it be off as it is supposed to be, unlike last night. So now, ALL WWCRs are off. What`s wrong?

At 1613, 13845 is on, 12160 is on with song ``Young Love`` during WW Country Radio, 9980 is off. Current websked shows WWCR-4 on 9980 is available ``13-01`` UT, meaning 12-24 UT, axual usage straight thru those hours is only on Sat & Sun, while on M-F, 9980 is ON only at 12-14 & 22-24. Of course this will all shrink to zilch if TOMBS axually quit radio after June 30. Has anyone found any explicit confirmation of such plans on website, direct from TOMBS, or mention on air? or more from Jeff White on Wavescan?

As for `WW Country Radio`, a much-needed respite from all that politico-gospel huxtering, now sked: M-F 16-17 12160, Tue-Fri and Sun 05-06 4840. ``Ring of Fire``at 1621. These are real standards, so wonder if any `new` shows are being produced, or just recycling evergreens like `The Talking [sic] Machine Show` (Glenn Hauser, OK, WOR)

** U S A. FCC website
https://www.fcc.gov/general/high-frequency-stations-seasonal-operating-frequency-schedules
Now has a link to A25 schedules as of April 29, but axually leads to B24!
However if you edit the link to A25, there really is one at:
https://www.fcc.gov/sites/default/files/A25FCC01.TXT
Also updated on the WOR homepage.

Strangeness: WTWW, finally has correct 5920 and 9930 instead of 5830 and 9940, but NOT 5085! And 12105 in case that ever reactivate third transmitter.

Imaginary WWCR registrations: would you believe 124 entries? Covering intraseasonal time changes, and segments within a broader span. Frequencies not really in use now:
3195, 3215, 6090, 7390, 11775, 12180, 15795, 15825. 6090 & 11775 are ex-Caribbean Beacon, Anguilla; 3195 was necessary only when sharing 3215 with defunct WWRB. 12180 & 7390 presumably alternates in case of QRM to 12160, 7490. WRMI not in use: 9975, 17775, i.e. ex-KVOH. WJHR fixionally as 50 kW on 15555 as if AM (Glenn Hauser, OK, WOR)

** U S A. 15555 USB, June 23 at 1450, JBA talk in deceased gospelhuxter style, and not on LSB, so WJHR Milton FL. I was about to wonder if it were silent as not heard for a week or two in random daytime bandscans, at 1449 about to conclude that, until straining to hear it now. Can be much stronger if it get a sporadic E boost, which one would expect more often this time of year. Minimum legal power is 50 kW, but it`s always been much less from a glorified ham rig. WRTH 2025 page 596 says: ``1 x 0.25 kW (run at 1 kW PEP)`` How does owner George Scott Mock get away with that? ``Plans`` a 50 kW unit? Not in the WOR Hitlist but WRTH says website is:
https://mytgibc.com/Missions.php i.e. ``True Gospel Independent Baptist Church``:

``WJHR Radio is a short wave radio station that broadcasts the gospel of Jesus Christ around the world. The station has received letters from Russia, Italy, Germany and South America to just name a few. WJHR broadcasts nothing but preaching 24 hours a day 7 days a week. The station was built and is maintained by Brother Scott Mock who is a faithful member of True Gospel Baptist for many years. If you would like to support or desire more information you can contact Brother Mock through the church or at the radio stations email address: WJHR@usa.com`` - I don`t think it`s ever been 24/7! Aoki shows 1400-2200, EiBi 1358-2200. That website does not explain that WJHR is a memorial to John Hill, who I think is the only preacher ever heard on WJHR.

On Dec 31, *2008*, Benn Kobb reported to us:

``The applicant doing business as Hill Radio International is an individual, Scott Mock, WB4BFO, who plans to broadcast from his Milton, FL home.

He proposes to use a custom-built transmitter and a four-element cubical quad antenna at 90 feet AGL. He told me that this station, which he hopes to name WJHR, will broadcast exclusively in single sideband.

Thus, to the FCC application question of "rated unmodulated carrier power output", he answered "Zero". The stated emission type is B8E.

He conceded that SSB broadcasting is unusual, but feels that there are enough SSB-capable receivers now and that his content will be compelling.

He said the station would be a commercial operation, but would be funded mostly by "contributions from churches that support our beliefs." The programming will come from a 40-year collection of recordings made at Smyrna Baptist Church in Pensacola FL.

You will recall that this church received its own construction permit for an HF station one year ago. There are several months left before that CP expires, but it appears that it will not be built and that WJHR is a new version of that project.

In the license application, where the applicant must outline his

"program plans and policies", Mr. Mock simply referred the FCC to
that earlier Smyrna file "to avoid duplication." Benn``
(Glenn Hauser, OK, WOR)

** U S A. 780, June 24 at 0640 UT, WBBM Chicago with `StarDate` -- if
I`m awake and alert enough this late, a very reliable time for this
2-minute feature. Toward the begining of any date, so unnecessary to
try to catch it later during our noon hour on KPR or QXFM. Not sure if
this be M-F only or everyday. So I check out the website. WBBM.com
leads to a TV station. For the radio station it`s
https://www.audacy.com/stations/wbbm780 --- guess what, lots and lots
of stuff there, but can`t find a plain old program schedule!!! And if
you`re not careful, will get sidetracked to countless other Audacy
stations. Located a search field but it can`t find StarDate with or
without a space. As usual, 780 is an afterthought to 105.9 FM as the
primary WBBM branding.

The program website:
https://stardate.org/radio/affiliates/state/illinois
includes it under Illinois; I don`t know about the other times on WBBM
AM & FM, but it lax this one! And it`s precisely at :40 past the hour,
so the others probably are too. The first one would be correct if it
were more than Monday and in CST during CDT and one minute earlier:
``Mon 12:41AM; Mon – Fri 3:41AM; Mon – Fri 9:41PM; Sat – Sun 8:41PM``
(Glenn Hauser, OK, WOR)

** U S A. 1320 kHz, June 21 at 0645 UT, KLWN ID in passing at tune-in.
That`s U1 500/250 in Lawrence KS (Glenn Hauser, OK, WOR)

** U S A. 1460, June 23 at 0223, South Asian singing atop the pile
right now; equal on the N/S and E/W antenna implying it is not due any
of the cardinal direxions. NRC AM Log shows the only one with such
``Asian`` format is KBRZ Missouri City/Houston TX, U1 5000/125 from
the SSE; as this is not Vietnamese = KCLE Burleson/Cleburne TX and
besides was silent as of 4/24. Of the 62 UStations on this busy
`regional` channel, only one other is ``ethnic``, WBMS Brockton MA, 30
watts - I think not (Glenn Hauser, OK, WOR)

** U S A. ``Glenn, regarding your reception on 1460: That would be
Sangeet Radio in the Houston market targeting the South Asian
community. They also have an FM translator K236AR on 95.1. There are
four FM translators with South Asian oriented programming here; you
might also try for KGOL “Hum FM” which is running a 2kw days/100 watts
nights STA on 1180, so critical hours might be a better time to try
for that one.
https://sangeetradio.com
Stephen Luce, Houston, Texas`` - tnx; 1180 would be tough here with
IBOC from 1170 KOTV, and the Cuban radio war (Glenn Hauser, OK, WOR)

** U S A. 1650 kHz, June 19 at 0622 UT, Spanish audible underneath
``The Fan`` which is KCNZ in Iowa. Probably KBJD Denver, if not KSVE
El Paso - no overnight tones from that heard in longtime but
supposedly 24h with TUDN, per NRC AM Log (Glenn Hauser, OK, WOR)

** U S A. 42.8 MHz, June 19 at 1556-1607 UT, no trace of a signal from
the publicized Armstrong FM test from Alpine NJ, as in:
https://www.radioworld.com/news-and-business/armstrong-broadcast-returns-to-new-jersey-in-june
Never clarified whether this would be WB FM, NB FM, or not even FM!

Tuning direct on the R75, however, without a specific VHF antenna.
Sporadic E might have propagated it afar. At that time I was hearing
only one ham beacon on 10m from Ontario; see Canada. Other reports of
no signal on 42.8:

Patrick Mannion, W1PAC, WOR iog at 1559: ``Listening on a nearby web SDR, so far nothing heard, not even signs of a warmup.`` Mannion at 1630 UT: ``Just got a carrier as of 12:30pm``

Arthur Pozner: ``Which SDR are you using?`` -- ``A friend's internet connected one, it was DM'ed to me on IRC. I don't think I'm allowed to share it.``

At 1617 UT: Mike Schaffer, WTFDA: ``Nothing heard in Easton, PA (FM20jq). Who is hearing it?`` At 1654: ``Armstrong Tower is 70 miles east-northeast of my location. Still not hearing it.``

Mike Bugaj, CT: ``Not hearing it and really wasn't expecting to. 100 miles NE with an APS13 not cut for 40 MHz. Heck I can't even get WNYZ 87.7 unless tropo is up. I would expect this to be a NYC area event.`` (Glenn Hauser, OK, WOR)

** U S A. 91.5, June 20 at 0330 UT, music and ID as ``Smile FM``, that Michigan station which has bought KSNS Medicine Lodge KS. Noticed during yet another fruitless bandscan for sporadic E FM DX, hopping all around us, above us but missing us at ground level (Glenn Hauser, OK, WOR)

91.5, June 21 at 1630 UT, gospel rock in mono, somewhat undermodulated but better than 101.7 sibling station, q.v. Now 91.5 is Smile FM out of Michigan. KSNS Medicine Lodge KS. None of this updated info yet in WTFDA FM DB (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 97.3, June 24 at 2110 UT, bandscan during possible Es opening encounters nothing except, ``continuous country Q97``, JBA. WTFDA FMDB shows four Q97s with various punxuation which are country, but cannot connect a ``continuous`` slogan to any of them even by searching websites. The most likely, groundwave Garden City, doesn`t play when I try to listen live, if I really wanted to listen long enough to hear them utter that exact slogan again. Anyhow, the possibilities:

KKJQ 97.3 GARDEN CITY KS 100.0 kW 244.0 m KKJQ THE DAWG - COUNTRY Q 97 FM
WKJQ-FM 97.3 PARSONS TN 6.0 kW 78.0 m COUNTRY Q 97.3 FM
WUUQ 97.3 SOUTH PITTSBURG TN 16.0 kW 261.0 m COUNTRY CLASSIC COUNTRY Q 97.3
KNCQ 97.3 WEAVERVILLE CA 28.0 kW 1088.0 m COUNTRY Q-97
(Glenn Hauser, Enid OK, WOR)

** U S A. 101.7, June 21 at 1627 UT, mono and very undermodulated talk about SCOTUS ruling on Trans, 1637 after break as `Washington Watch`, some gospel huxter network. KREJ Medicine Lodge KS. Sibling station to 91.5.

UNIDENTIFIED. 1550.58, June 21 at 0643, JBA carrier hetting 1550s: rather than the `usual` 1549.82 presumed XEREL, could still be there, inaudible right now. Nothing so far away in mwoffsets (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1560.11, June 21 at 0642, JBA carrier hetting 1560s such as Vietnamese KGOW TX. Nothing that far away in mwoffsets (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 6861 approx., 0153 UT June 22, repetitive musicalish notes, no carrier, can`t get a fix to resolve it in USB or LSB; pirate? (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 9236.0, June 25 at 0617, weak open carrier direct, one of the mysterious group always ending in 6. Had been accompanied by

clickery over a much broader range, but too much noise level to detect that now (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 9340.4, June 25 at 0616, S6/S9 open carrier direct, while 9330 WBCQ is AWOL. Ditto at 1456 check when it`s a JBA carrier. What is this? (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 11580/11585, June 23 at 0201 as I bandscan, encounter a very strong tone/carrier sweeping in this approx. range, then gone. What? (Glenn Hauser, OK, WOR)
